PURPOSE

The Osborn R-0 School District (“District”) is seeking to an Architectural and Engineering firm (Consultant) to provide architect services for a variety of projects. These projects could include, but not be limited to, construction of a new library and flex classroom, connecting the shop building to the main building with a new corridor, renovation of the current shop building by expanding the size of the two present classrooms and restrooms, and renovation of the current library for use as Preschool and Special Education classrooms. The contracted services to be performed will be to furnish all the required labor, materials, equipment, parts and supplies necessary for Conceptual Design, Preliminary Plans, Schematic Design, Design Development, Construction Documents and Specifications, and Construction Review to include construction permit review approvals through the appropriate governing authorities. The District reserves the right to approve all consultants that make up the Architect team that may be required for the completion of a project. Upon successful approval, the District will utilize the selected firms.

GENERAL CRITERIA FOR CONSULTANT SELECTION

The District’s Board of Education shall select the firm considered best qualified and capable of performing the desired services and shall negotiate a contract. Should the District be unable to negotiate an acceptable contract with the firm first selected, the Board may negotiate a contract with another firm.

The data submitted will be evaluated against the following criteria:

1. The specialized experience and technical competence, including that of partners and associates, demonstrated either with the District or elsewhere, with respect to the type of services desired by the Board.
2. The capacity and capability of the firm to perform the tasks requested, as well as any specialized services, within the time limitations established for the completion of the project.
3. The firm's past record of performance with respect to control of costs, quality of work, design, appearance, utility and the ability to meet time schedules.
4. The firm’s proximity to and familiarity with the geographical area in which the project shall be located.

OWNER

The owner is the Osborn R-0 School District and the projects will be located within the city limits of Osborn, MO or within Clinton County. The main office for the District is located at 275 Clinton Avenue, Osborn, Missouri 64474.

AWARD OF CONTRACT

The District reserves the right to reject any and all proposals and waive any and all informalities and the right to disregard all non-conforming or conditional proposals or counter proposals.

The District may accept any proposal that would best serve the interest of the school district based on the qualifications and capability of the selected firm to provide the services required.

Legislation in the State of Missouri that became effective August 28, 2016 allows for the use of the design-build delivery method for construction projects done by political subdivisions, including public school districts. This RFQ is not intended to apply to any design-build project or result in a design-build contract, and it is not anticipated that the projects for which the District will utilize the Consultant's services will allow for the use of the design-build delivery method. However, the District may use the Consultant as a "design criteria consultant" in the event the District chooses to utilize the design-build delivery method for future projects.

SERVICE PERIOD SCHEDULE

The following are the dates when these services can begin and continue for a period of three (3) years from contract execution. All insurance documents must be on file with the District prior to the selected Consultant being authorized to proceed.

Contract Period: Start Date – [01/23/2023] Completion Date – [01/22/2026]

The contract shall be subject to renewal for two (2) consecutive one-year periods after the initial contract period, pending agreement between both parties and Board of Education approval.

The submitting firm further agrees that it will make no attempt to change, delete or otherwise modify these contractual terms, whether in this RFQ or in Exhibit A, and further agrees that any attempt to do so shall constitute failed negotiations and allow the District to negotiate a contract with the next most qualified firm(s). Further, any attempt to change, delete or otherwise modify these terms in the proposal itself shall be grounds for the District to reject the firm's proposal.

Osborn R-0 School District Supplementary Conditions to AIA Document B101-2017

The following supplements, modifies, changes, deletes from or adds to the "Standard Form of Agreement Between Owner and Architect", AIA Document B101-2017, entered into between the Osborn R-0 School District ("District") and _____. Where any Article of the Standard Form of Agreement is modified or any Paragraph, Subparagraph, Clause, or portion thereof is modified or deleted by these Supplementary Conditions, the unaltered provisions of that Article, Paragraph, Subparagraph or Clause shall remain in effect. Language that is being deleted shall be shown by strikethrough below. Language that is being added is shown in red. Italicized language indicates instructions regarding changes to the Standard Form of Agreement.

ARTICLE 1 INITIAL INFORMATION

§ 1.1.12 Other Initial Information on which the Agreement is based:

Projects will be awarded at the discretion of the District's Board of Education.

In addition, no payment of any kind shall be made by Owner to Architect unless or until the District's applicable Bond Issue passes.

§ 1.2 The Owner and Architect may rely on the Initial Information. Both parties, however, recognize that the Initial Information may materially change, and, in that event, the Owner and the Architect shall appropriately adjust the Architect's services, schedule for the Architect's services, and the Architect's compensation. The Owner shall adjust the Owner's budget for the Cost of the Work and the Owner's anticipated design and construction milestones, as necessary, to accommodate material changes in the Initial Information. Both parties must consent, in writing, prior to any adjustment in the Architect's services, schedule for the Architect's services, and the Architect's compensation.

ARTICLE 2 ARCHITECT'S RESPONSIBILITIES

§ 2.2 The Architect shall perform its services consistent with the professional skill and care ordinarily provided by architects practicing ~~in the same or similar locality~~ under the same or similar circumstances. The Architect shall perform its services as expeditiously as is consistent with such professional skill and care and the orderly progress of the Project. The Architect's services shall endeavor to comply with applicable federal, state and local laws, statutes, ordinances, codes, rules and regulations (collectively, "Laws"), and any final Construction Documents shall comply with all applicable Laws in effect at the time of completion of the same. Additionally, Architect shall ensure that any final Construction Documents, including necessary Drawings and Specifications, are

reasonably accurate and not substantially deficient or defective, so that construction of the project pursuant to the Construction Documents will be viable, feasible, and otherwise constructible, taking into account the conditions of the site, the budget for the Cost of the Work, all applicable Laws in effect at the time the Construction Documents are completed, and any other conditions to which the project is subject. For purposes of this paragraph, substantially deficient or defective shall mean so faulty as to prevent or unreasonably delay completion of the contract performance by Owner's Contractor. To the extent any final Construction Documents are not reasonably accurate, or are substantially deficient or defective, then Architect shall correct the same and shall bear the costs to the Owner related to changes in the Work.

§ 2.5 The Architect shall maintain the following insurance until termination of this Agreement. ~~If any of the requirements set forth below are in addition to the types and limits the Architect normally maintains, the Owner shall pay the Architect as set forth in Section 11.9.~~

§ 2.5.1 Commercial General Liability with policy limits of not less than **One Million (\$1,000,000)** for each occurrence and **Two Million Dollars (\$2,000,000)** in the aggregate for bodily injury and property damage.

§ 2.5.2 Automobile Liability covering vehicles owned, and non-owned vehicles used by, the Architect with policy limits of not less than **One Million Dollars (\$1,000,000)** per accident for bodily injury, death of any person, and property damage arising out of the ownership, maintenance and use of those motor vehicles, along with any other statutorily required automobile coverage.

Services. All of the Architect's services shall be made with reasonable promptness and without delay. The Architect shall indemnify and hold the Owner harmless from any and all claims and damages made or incurred by the Contractor or any other affected parties arising out of the Architect's unreasonable delay in performing its duties. If any of the aforesaid claims or damages are caused in part by any other party over which the Architect does not have direct control, then the Architect's obligations under this paragraph will be limited to the Architect's proportionate share for such claims or damages based on the Architect's unreasonable delay.

§ 3.1.2 The Architect shall coordinate its services with those services provided by the Owner and the Owner's consultants. The Architect shall be responsible to the Owner for the services furnished to the Architect by any of the Architect's own consultants to the same extent as if the Architect has furnished the service itself. The Architect shall provide prompt written notice to the Owner if the Architect becomes aware of any error, omission, or inconsistency in such services or information.

§ 3.1.3 – *Delete in its entirety and replace with the following:*

As soon as practicable after receiving authorization to proceed from the Owner, the Architect shall submit for Owner's approval a schedule for the performance of the Architect's services. The schedule initially shall include anticipated dates for the commencement of construction and for Substantial Completion of the Work as requested by the Owner. The schedule shall include allowances for periods of time required for the Owner's review, for the performance of the Owner's consultants, and for approval of submissions by authorities having jurisdiction over the Project. Once approved by the Owner, time limits established by the schedule shall not, except for reasonable cause, be exceeded by the Architect or Owner. Reasonable cause shall include the failure of the Board of Education to approve projects. With the Owner's approval, the Architect shall adjust the schedule, if necessary, as the Project proceeds until the commencement of construction.

§ 3.1.4 The Architect shall not be responsible for an Owner's directive or substitution, or for the Owner's acceptance of non-conforming Work, made or given without the Architect's written approval, which shall not be unreasonably withheld.
